Reference

- Scrape And Summarize News Articles
- https://www.youtube.com/watch?v=YzMA2Q_y5cQ
- The video also shows you a web site that you can use to write python code without installing python on your computer

#this program scrapes and summaries news articles

```
In [1]: 1 #pip install nltk
        2 #pip install newspaper3k
```

```
In [2]: 1 #import required Libraries
        2 import nltk
        3 from newspaper import Article
        4
```

```
In [3]: 1 #get the article
        2 #https://www.washingtonpost.com/technology/2019/07/17/you-downloaded-faceapp-heres-what-youve-
        3 url = 'https://www.washingtonpost.com/technology/2019/07/17/you-downloaded-faceapp-heres-what-y
        4
        5 #create an object of class type Article providing the url as an argument
        6 article=Article(url)
        7
```
